

Collected Kit Drop Off

Where to deliver collected kit?

- Please deliver the collected kit to the rolling cart in the Lab Client Services office, room FB.2.413.
- FB.2.413 is located across from the transfusion lab on Forest B floor 2.
- The rolling cart will be straight inside the door, directly next to Shamus's desk.

Don't want to deliver? Tube it!

- Please tube to tube station 266 and 276

How to Request Kits:

In-person Collection: Email Reference Lab Team (ReferenceLabTeam@seattlechildrens.org) to request a kit to be collected in clinic and returned to lab via in person drop off or tube station delivery (ONLY for cases where preauthorization is already in place, or testing is no charge, and an order MUST be placed in Epic before the request can be triaged)

Remote Collection: Complete the Kit Request Handoff Form to request a kit to be sent to a family's home & returned directly to SCH or reference laboratory.

Instructions found on the LabMan:
